LAPTOP BAGS FOR 13.3-INCH MACBOOK AIRS

Below is a list of suggested MacBook Air laptop bags that meet the required specifications. They are not the only acceptable bags but should aid you in choosing one. **A backpack, even with a padded area for a computer, will NOT meet this requirement. It must be a separate bag, just for transporting the computer, with a shoulder strap. Do not purchase a bag made of neoprene.** I would also suggest that you buy a hard-shell cover. This is optional but has proven helpful in protecting the corners from drop damage that results in an insurance claim (and a $100 deductible.)

Below are suggestions for optional Hard Shell Covers. The first one is a more expensive, more rugged case that would offer more protection. However, even the less expensive one would provide some protection. If choosing your own, be sure to purchase one for Macbook Air model A2337.

Note: If you purchase a hard case shell cover, you will need to buy a little larger bag, so that the MacBook will fit when the shell has been added.
